ABOUT ME

Hi, I am Muhammad Usman, I'm self learning frontend web development from one year and looking for an internship opportunity as a frontend web developer to further develop skills. I couldn't continue my studies but I have started learning the web development by myself to grow in this field. I can convert figma or xd designs to responsive design either in html or react. I have build many project in frontend design using html, css, JavaScript, Bootstrap, Tailwind css and Reactjs. Some of them are mentioned below. And now I am looking for gaining professional experience in your company to level up my skills and experience. Thank You!
